

Solutions for Healthcare

Stay Connected and Compliant

REQUEST A DEMO

DTEN and Zoom reliably deliver consistent clinical user experiences while seamlessly integrating into existing technology and workflows.

Virtual Healthcare

Connect face-to-face with patients, caretakers, and family members with life-like video and communicate with enhanced audio for crystal clear conversations

Seamless Integration with Epic

Launch a video visit using Zoom directly from Epic applications in telehealth workflows

Security and Compliance

Zoom enables multi-layer security with AES-256 encryption and HIPAA compliance. Wireless connectivity available

Enhanced Productivity

DTEN all-in-one solutions for Zoom combine best-in-class technology and intuitive built-in communications tools

Training

Cost-effective continuing education and ongoing training for healthcare professionals regardless of location

DTEN video conferencing and collaboration solutions:

- Optimize resources through time savings for doctors, administrators, nurses and patients
- Improve patient outcomes with easy access to preventative and routine care
- Enhance collaboration through expedient peer review of patient cases with remote medical experts

Intuitive. Easy Setup. Plug it in and it just Works.

Video Enabled Patient Care

DTEN all-in-one solutions for Zoom empower healthcare providers to offer more interactive and engaging virtual visits for patients, caretakers, and family members, regardless of location

Telehealth

Use telehealth consultations to connect physicians, patients, and specialists for regular primary care or urgent care visits

Collaborate with colleagues and deliver precise, illustrated annotation to shared multimedia documentation for better patient outcomes

Health Education

Provide virtual behavioral and mental health in 1-1 or group sessions that patients may join from their homes

Deliver health education programs and preventative care for high-risk populations with easy, reliable access to video sessions

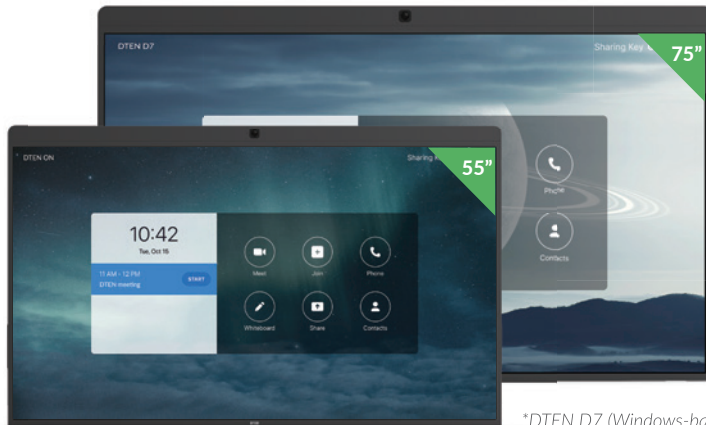

Accessibility

Let patients safely connect with family and friends from nursing homes, assisted living complexes and hospital rooms

DTEN solutions are compatible with common desktop, medical carts and VESA mounts
